

QUAID-E-AZAM THERMAL POWER (PVT) LIMITED

INVITATION FOR PROPOSAL (IFP)

IFP No. 6-RLNG-POWER PLANT (HSD)

Supply of High Speed Diesel (HSD) to 1180 MW Combined Cycle Power Plant at Bhikki, Punjab, Pakistan

Quaid-e-Azam Thermal Power (Private) Limited (QATPL) is a company wholly owned by the Government of Punjab, and incorporated under the Companies Ordinance 1984. QATPL is setting up a 1180 MW (Gross) Combined Cycle Power Plant at Bhikki, 18 km from Sheikhupura under the IPP (Independent Power Producer) regime. The plant will be run on Re-Gasified Liquefied Natural Gas (RLNG) as primary fuel and on High Speed Diesel (HSD) as a backup fuel.

The project will be commissioned in phases; both Gas Turbines (Simple-Cycle) have achieved Commercial Operation Date (COD) and the entire Complex (Combined Cycle) is expected to achieve Commercial Operation Date (COD) in last quarter of 2017. In this regard, HSD will be required in October and November, 2017. Consequently, the Company intends to engage a reputable Oil Marketing Company (OMC) for Supply of HSD to 1180 MW (Gross) Combined Cycle Power Plant Bhikki.

For this purpose, sealed technical and financial proposals are invited from prospective bidders for Supply of HSD to the subject Power Plant.

A complete set of Bidding Documents in English language, containing all information required from prospective bidders including instructions for preparation and submission of technical and financial bids, evaluation criteria etc. can be downloaded free of cost from PPRA's website or QATPL's website (www.qathermal.com) by interested companies.

Interested companies may also inspect and obtain the Bidding Document from the following office during office hours. Technical and financial bids, prepared in accordance with the instructions in the Bidding Document, must be delivered to the following address by October 11, 2017 till 1100 hours (Pakistan Standard Time). The applications will be opened on the same day at 1130 hours (Pakistan Standard Time).
